

Long life, long lengths, long list of features

Get Chemonite® wood piling directly from Conrad Forest Products

It's been serving West Coast utilities for years, and now Chemonite® ACZA pressure-treated wood is impressing contractors in heavy construction nationwide. Marine piling, foundation piling, shoring, lagging, structural timbers. Plus poles, posts, and even crossies. The Chemonite® process penetrates hard-to-treat species like Douglas fir, providing long-lasting piles in uncommonly long sizes.

Chemonite® wood piles are economical, and also have environmental benefits over alternative materials. They are available directly from Conrad Forest Products, a major western wood preserver with decades of experience in ACZA and Douglas fir.
